PRAYAGRAJ | UTTAR PRADESH

Where horizon meets the sky and the magic unfolds.

सुरक्षा और भरोसा

ABOUT THE PROJECT

“Why Settle for Less? Enjoy 25% More Flat Area”

While most developments optimize for density, Citizen Twin Towers is designed for spacious living. The difference is immediately evident, unlike typical 2 BHK and 3 BHK apartments that offer standard flat areas, compact layouts, and compromised room proportions, our residences are designed with 25% more usable area. Where others restrict space and charge more, we deliver large, free-flowing layouts, generous bedroom sizes, abundant natural light, and thoughtfully planned interiors - with premium features included as standards, not upgrades. The result is bigger homes, better design, and unmatched value - setting a new benchmark in the region with Luxury in every corner.

Modern Gym and Fitness Center

The modern gym draws inspiration from Japanese minimalism - uncluttered, intentional, and harmonious. State-of-the-art equipment blends seamlessly into a tranquil environment, allowing focus without distraction and power without noise.

Resort-like Backyard (First and only Residential project in Prayagraj featuring water slides)

The twin towers is truly a prized asset; offering the perfect setting to reconnect and unwind. Children enjoy playful splashes in a safe, thoughtfully designed environment, while adults relax in the soothing waters or gather along for meaningful conversations. Families can slow down, share moments, and simply be together.

The Sakura Greens -
A Landscape of Living Harmony

The expansive lawns at Citizen Twin Towers unfold as a canvas of calm and quiet beauty. Inspired by the philosophy of Japanese gardens, the curated green expanse is designed not merely as an open space but as breathing space where earth, sky and soul meet in a gentle balance. Here, mornings begin with dew-kissed grass beneath your feet. Children's laughter drifts softly through the breeze and evenings settle into golden stillness.
